Synopsis:

This book is a collection of topics revolving around strategic and contemporary issues faced by human resource professionals and they need to appreciate and understand. Written in self contained units, reader can choose to focus on particular areas or topics of interest or to read the entire book chapter by chapter.

Reviews:

“This book written by Kevin Vince Fernando is reflective of the current trends in human resource management. It is a practical book for professionals in the field of HR management, designed to impart an essential message, namely, that a continuing learning process via experience in the implementation of HR policies for a dynamic workforce, is critical to the bottom line success of any organization.”

- Dr. Mohammed Salleh, Managing Director, RDI Management Learning Singapore
